plan

Current native implementation | c857321 + capture-only route allowlist | not visual approval
Actual emulator render. Judge hierarchy, density, spacing and consistency against Lovable source.

LIGHT

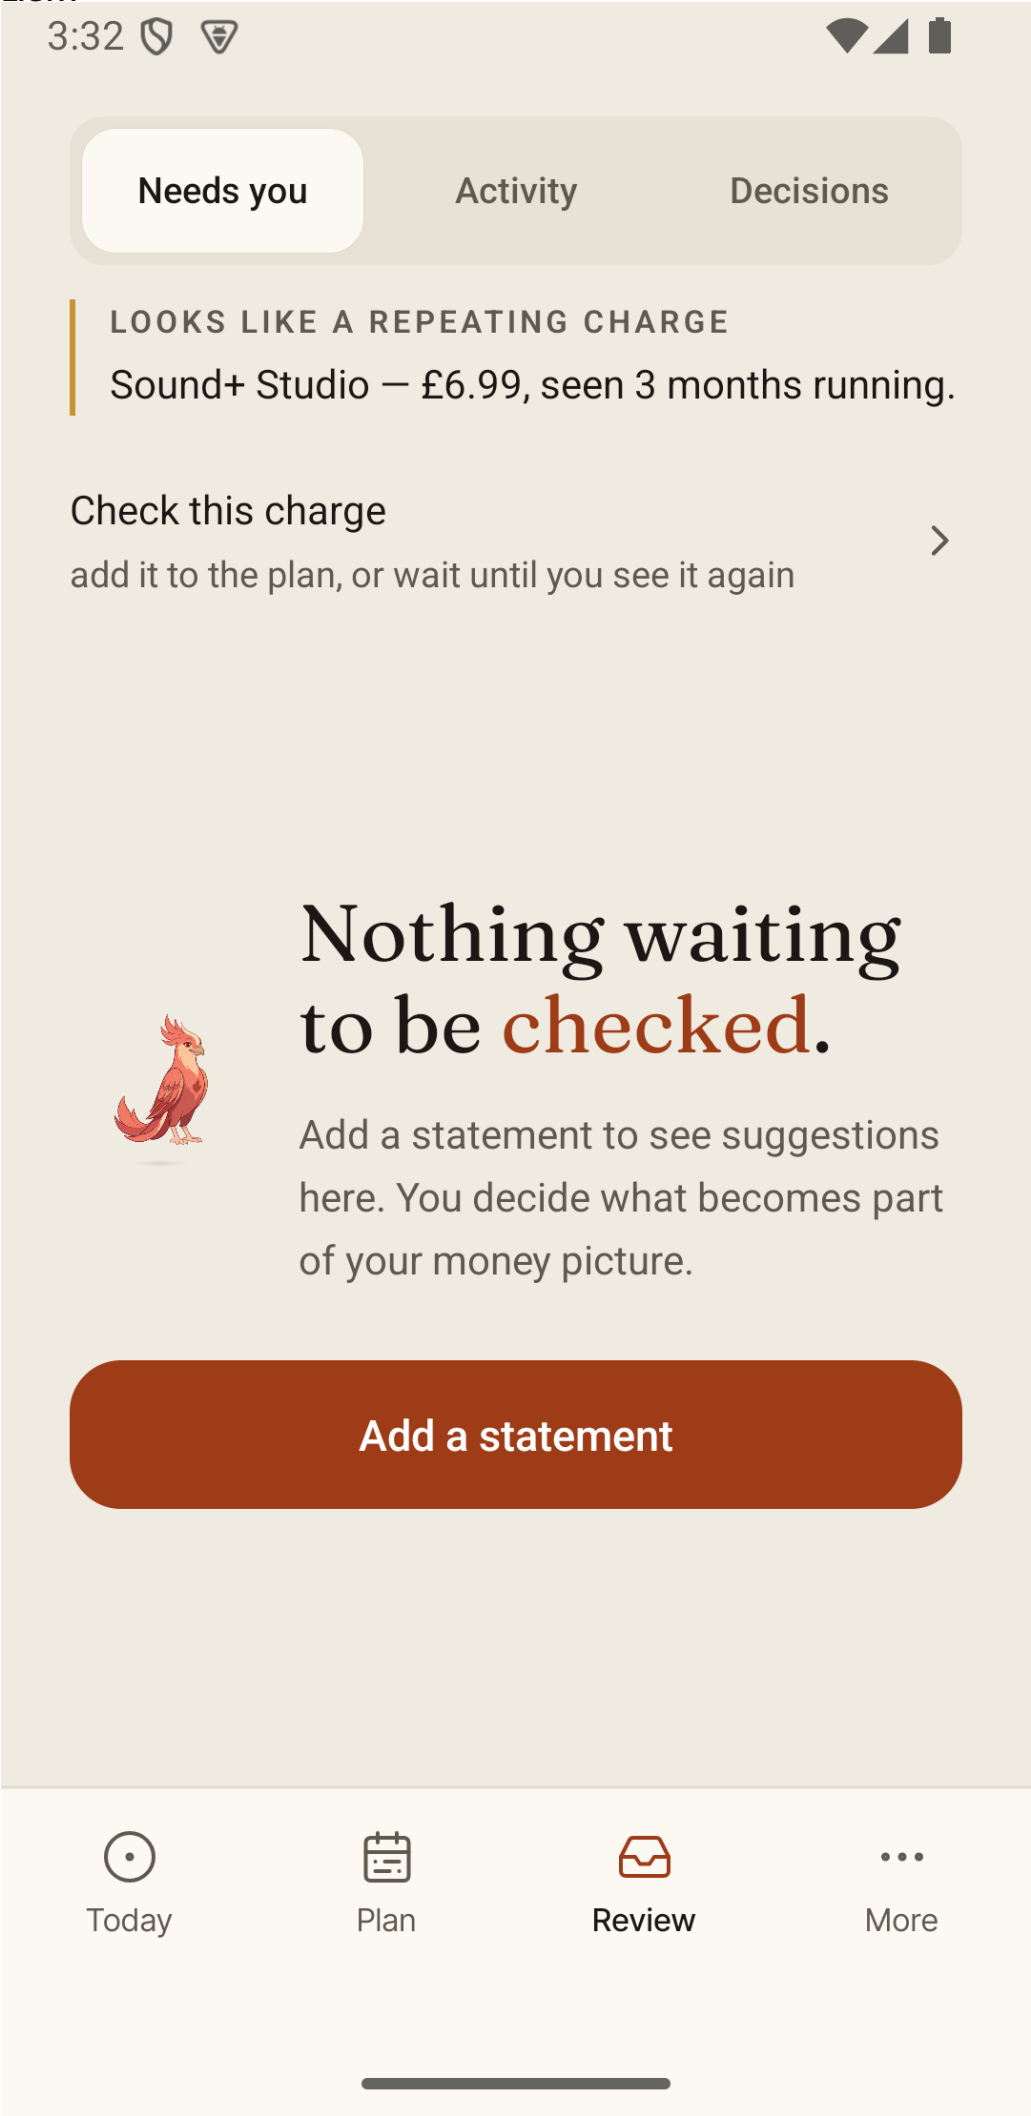

DARK

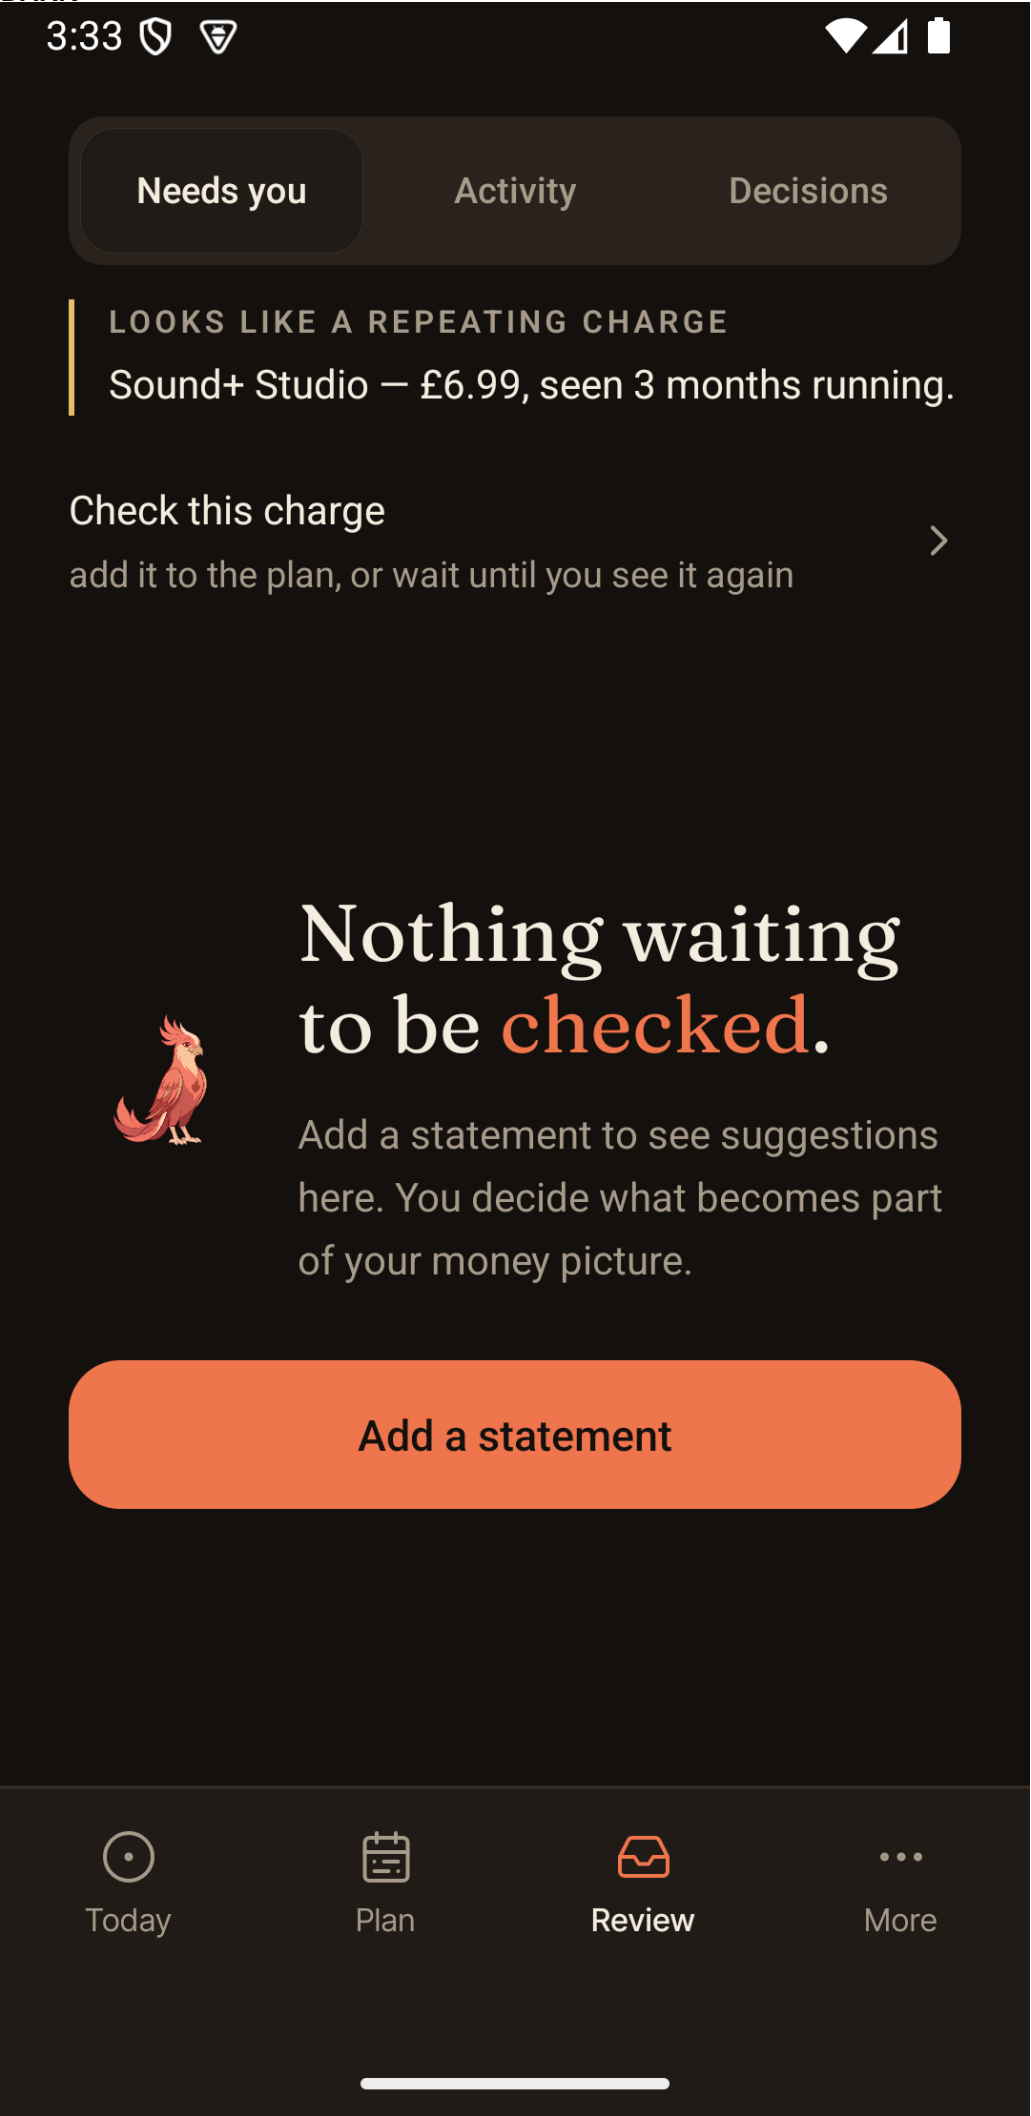

review

Current native implementation | c857321 + capture-only route allowlist | not visual approval
Synthetic recurring charge suggestion plus empty import queue; assess contradictory empty copy.

more

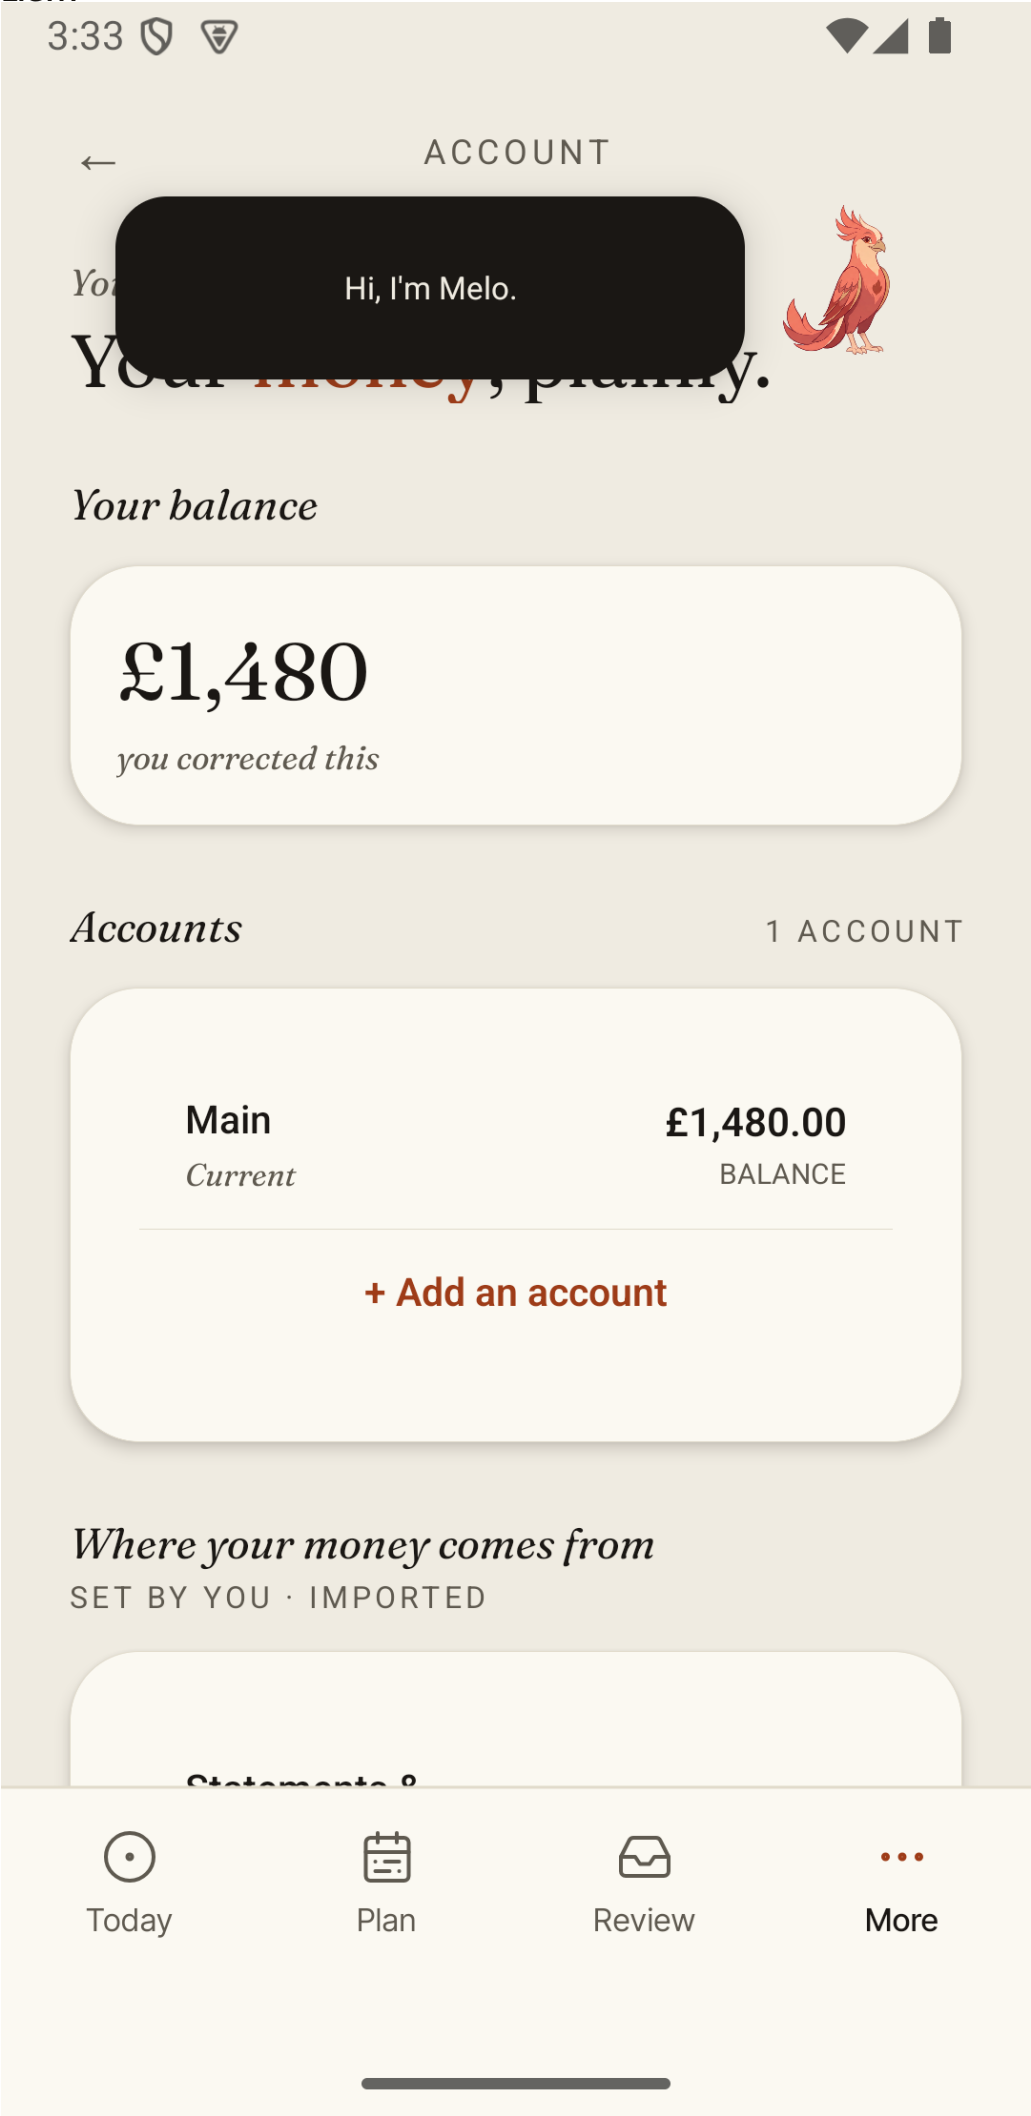

Current native implementation | c857321 + capture-only route allowlist | not visual approval
Actual emulator render. Judge hierarchy, density, spacing and consistency against Lovable source.

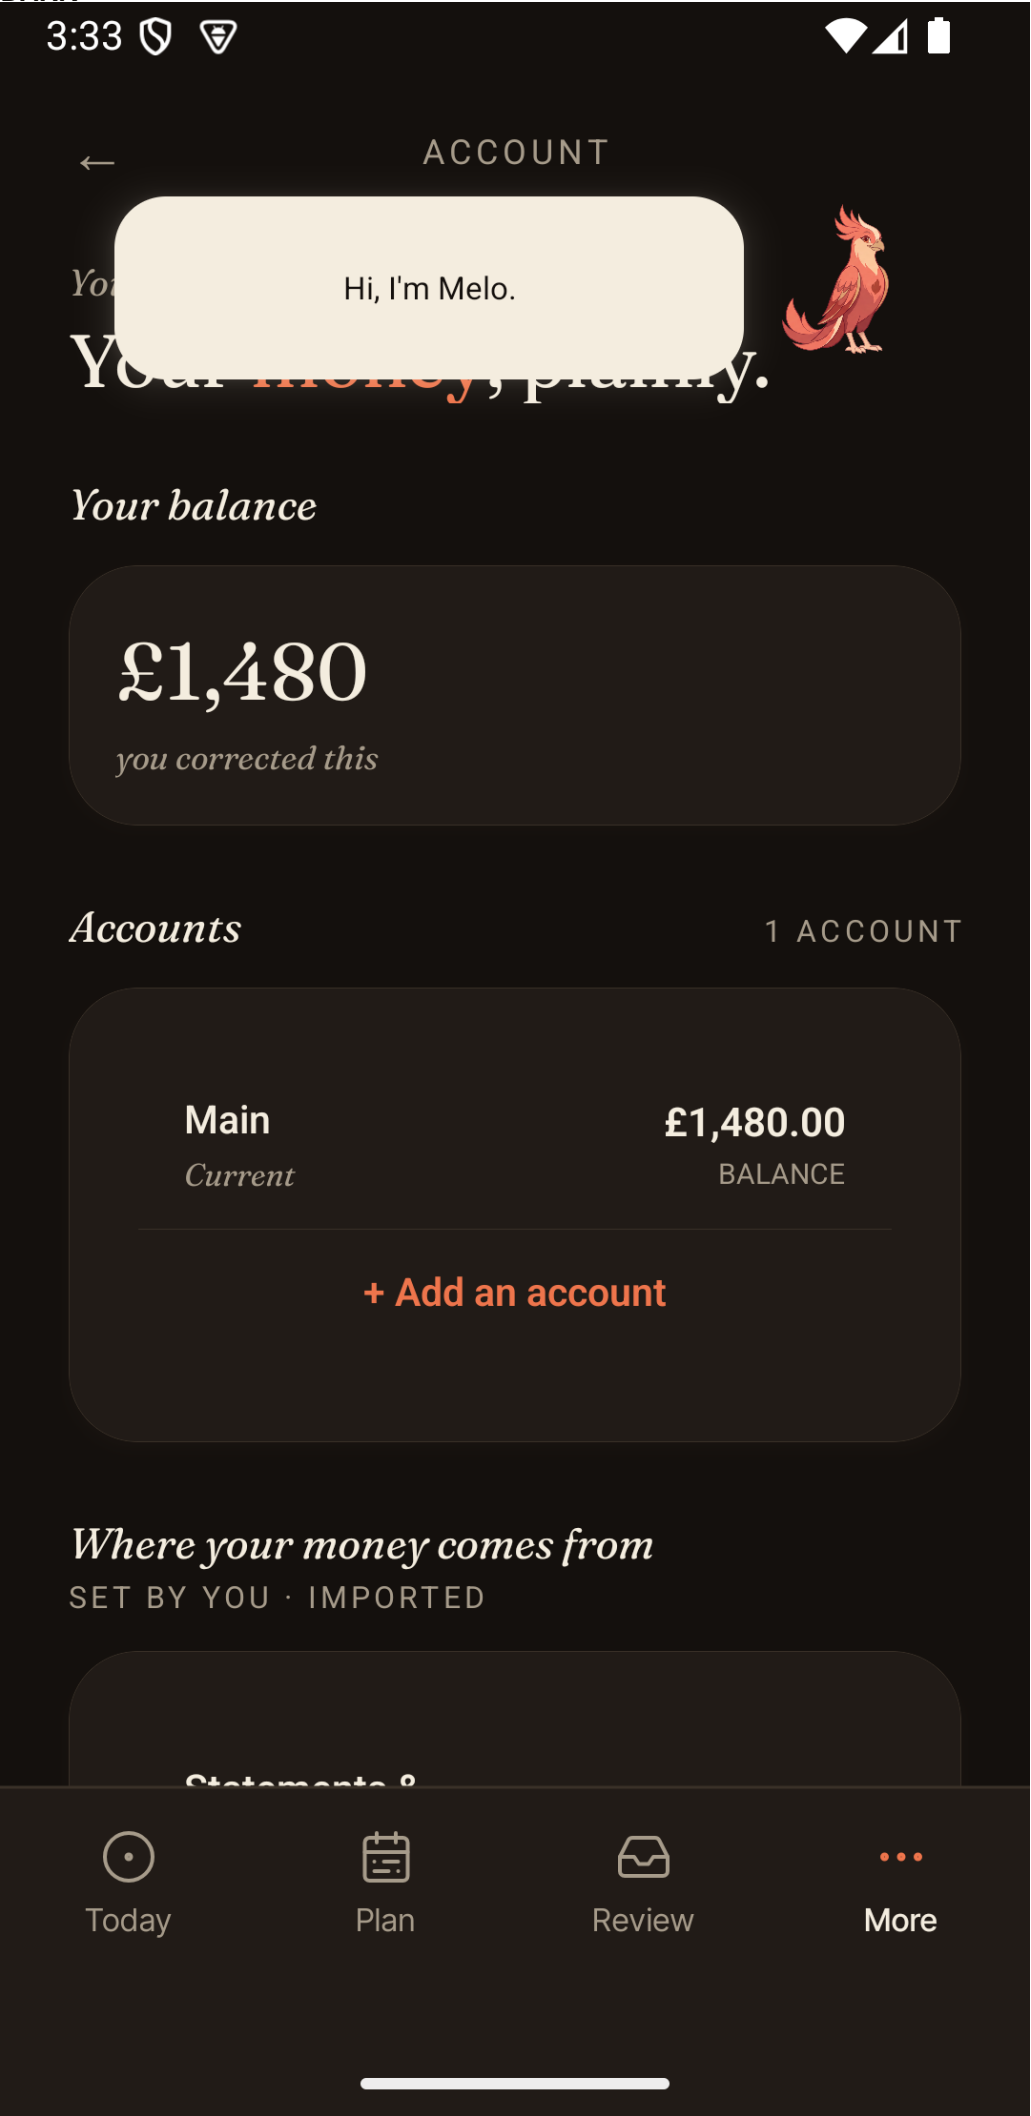

account

Current native implementation | c857321 + capture-only route allowlist | not visual approval
First greeting overlay is real product UI and obscures the heading in the light capture.

LIGHT

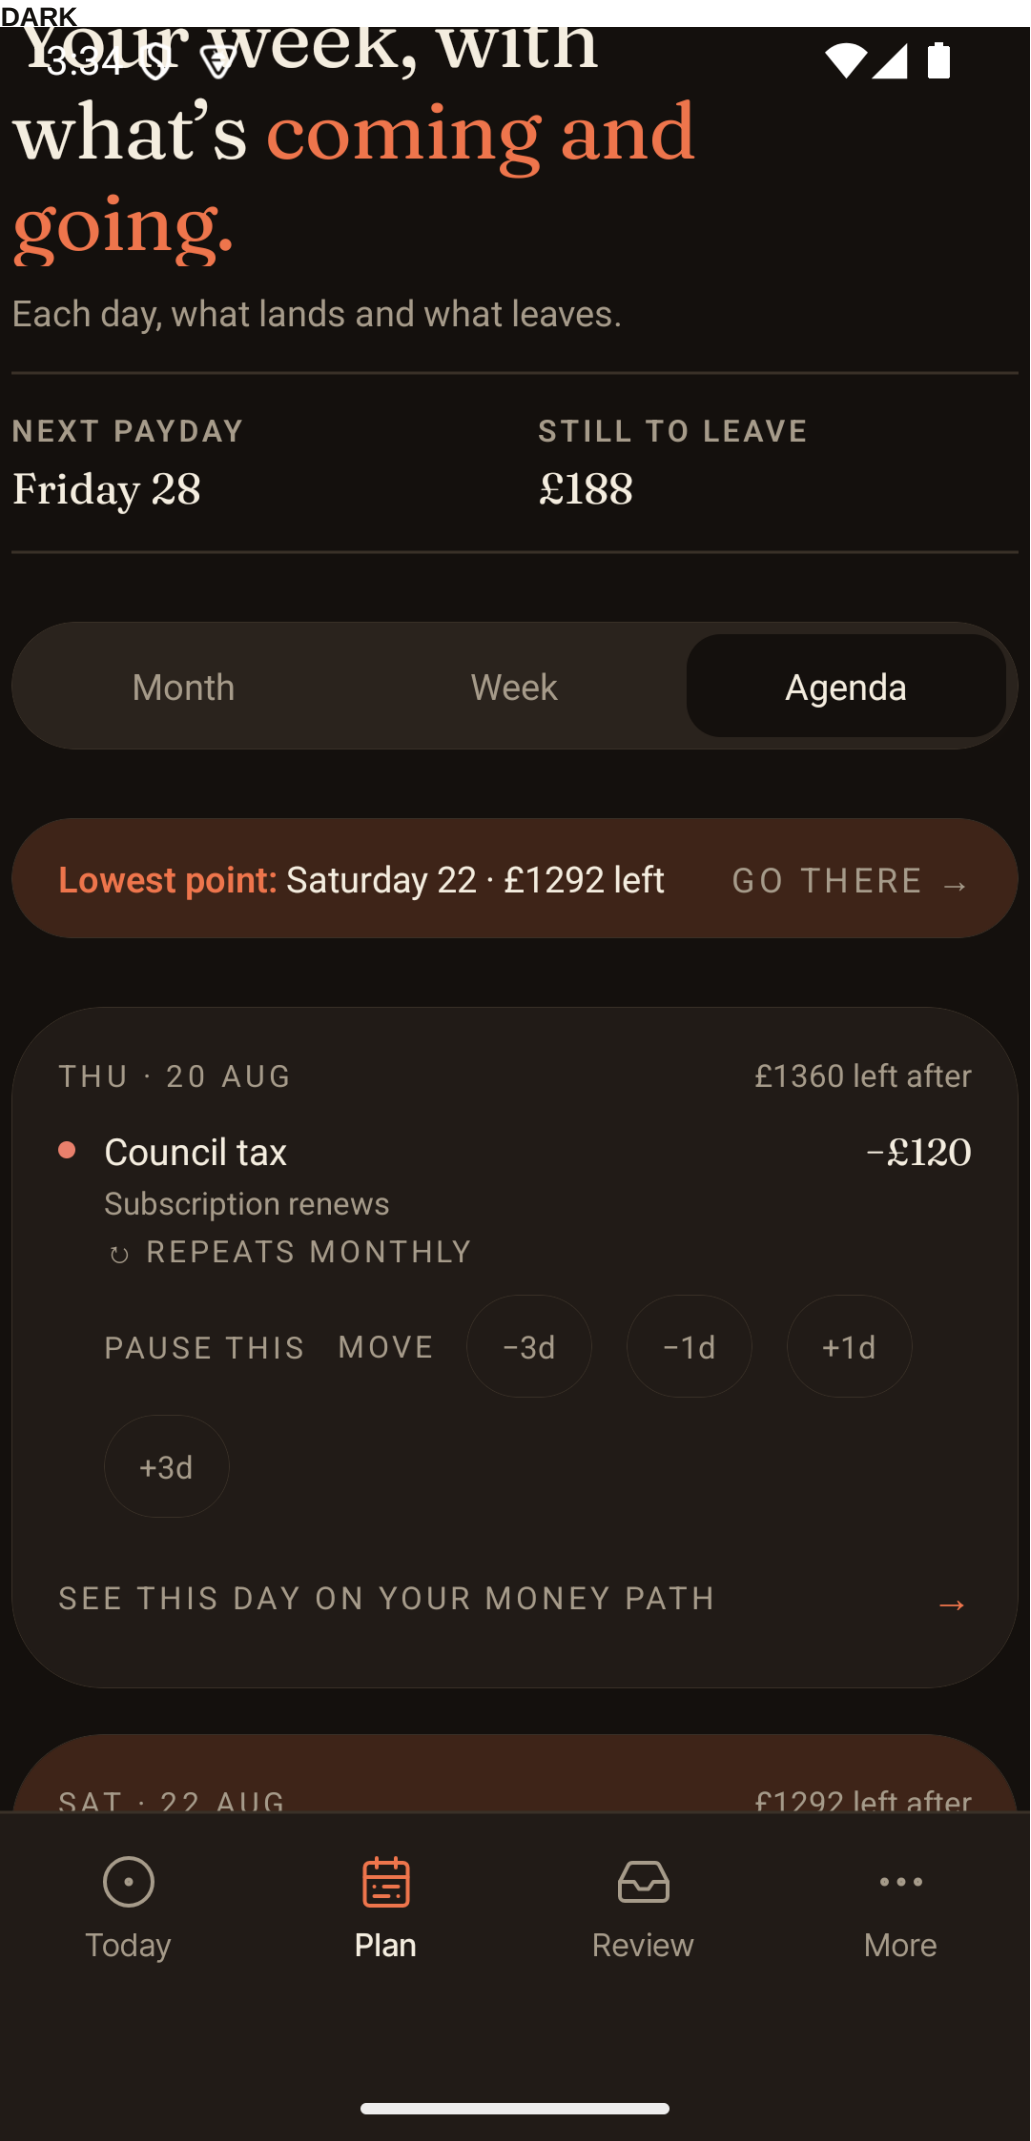

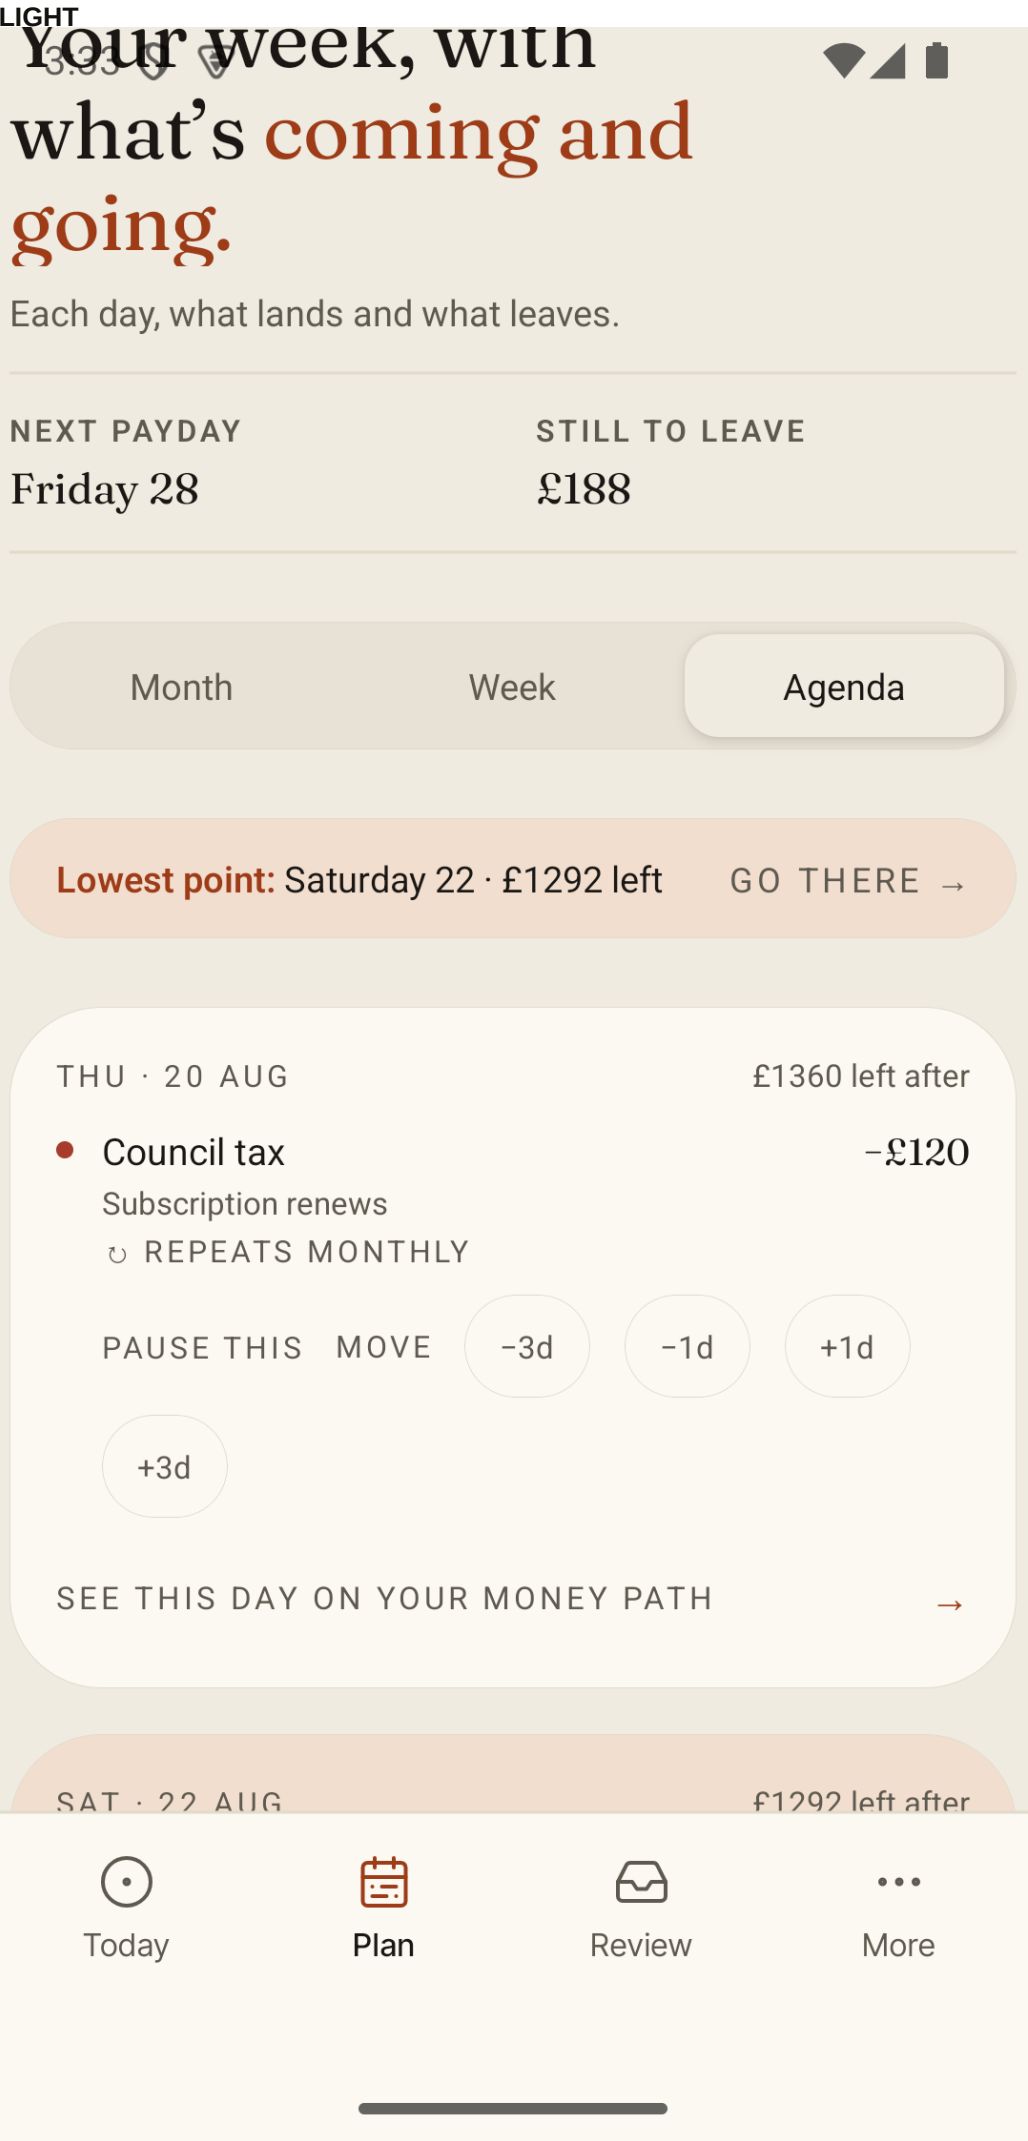

DARK

calendar

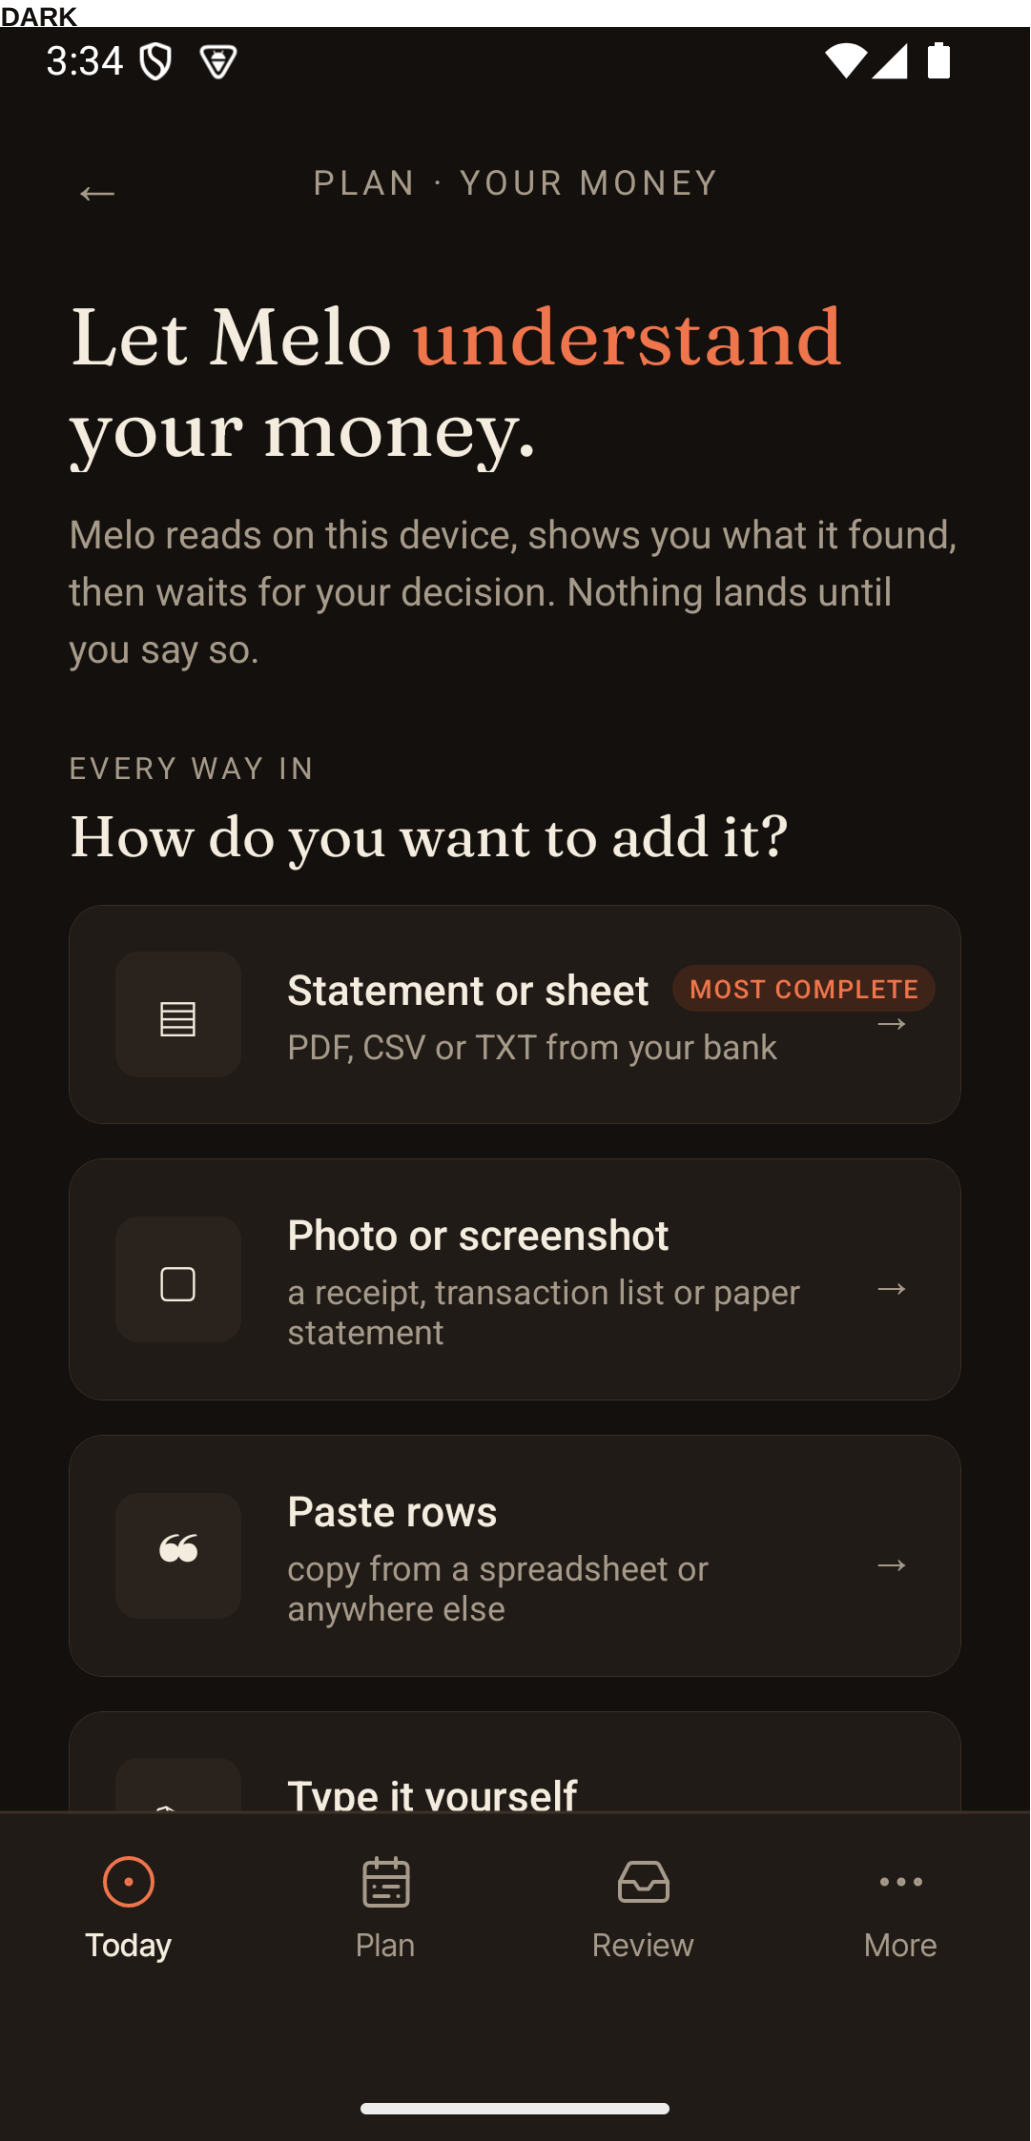

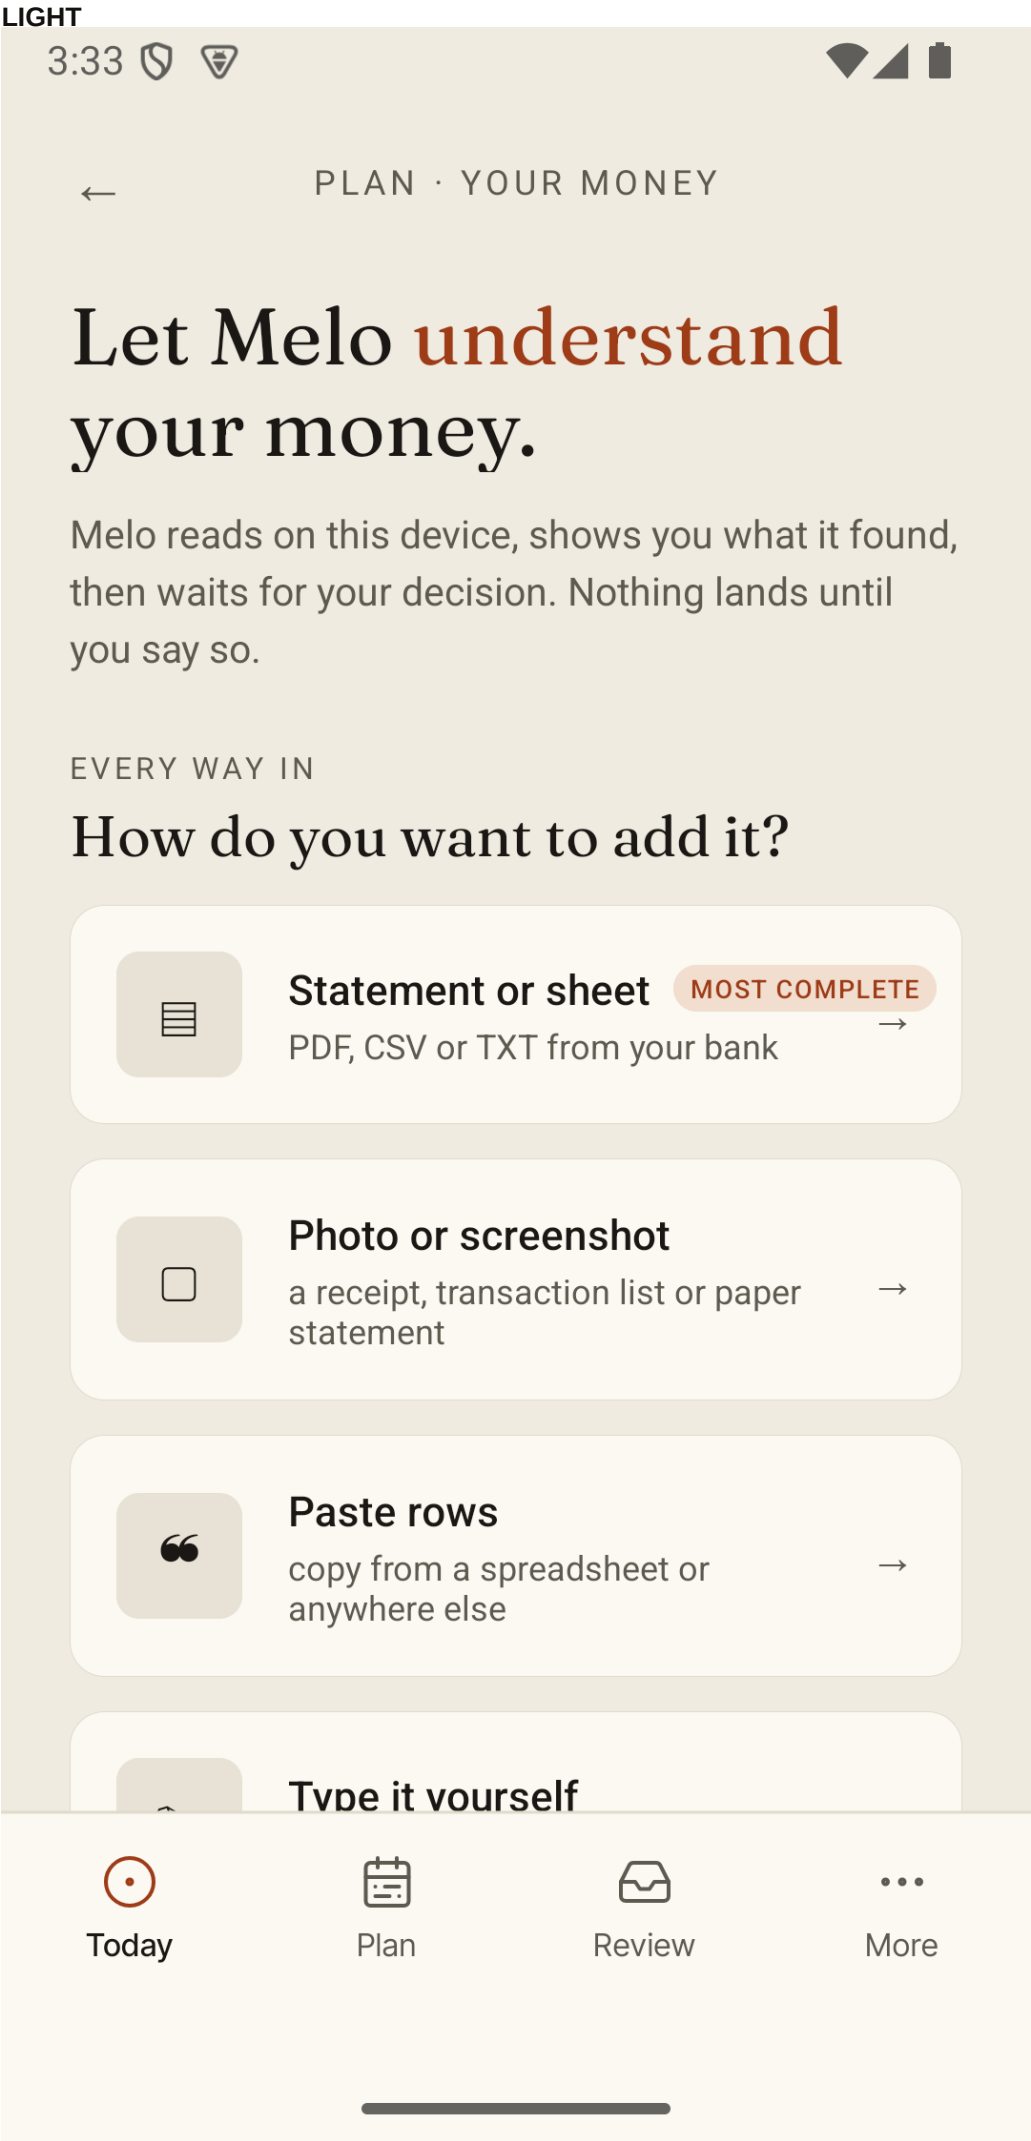

Current native implementation | c857321 + capture-only route allowlist | not visual approval

Agenda capture: content crosses the status bar; investigate safe inset and initial scroll.

intake

Current native implementation | c857321 + capture-only route allowlist | not visual approval
Actual emulator render. Judge hierarchy, density, spacing and consistency against Lovable source.

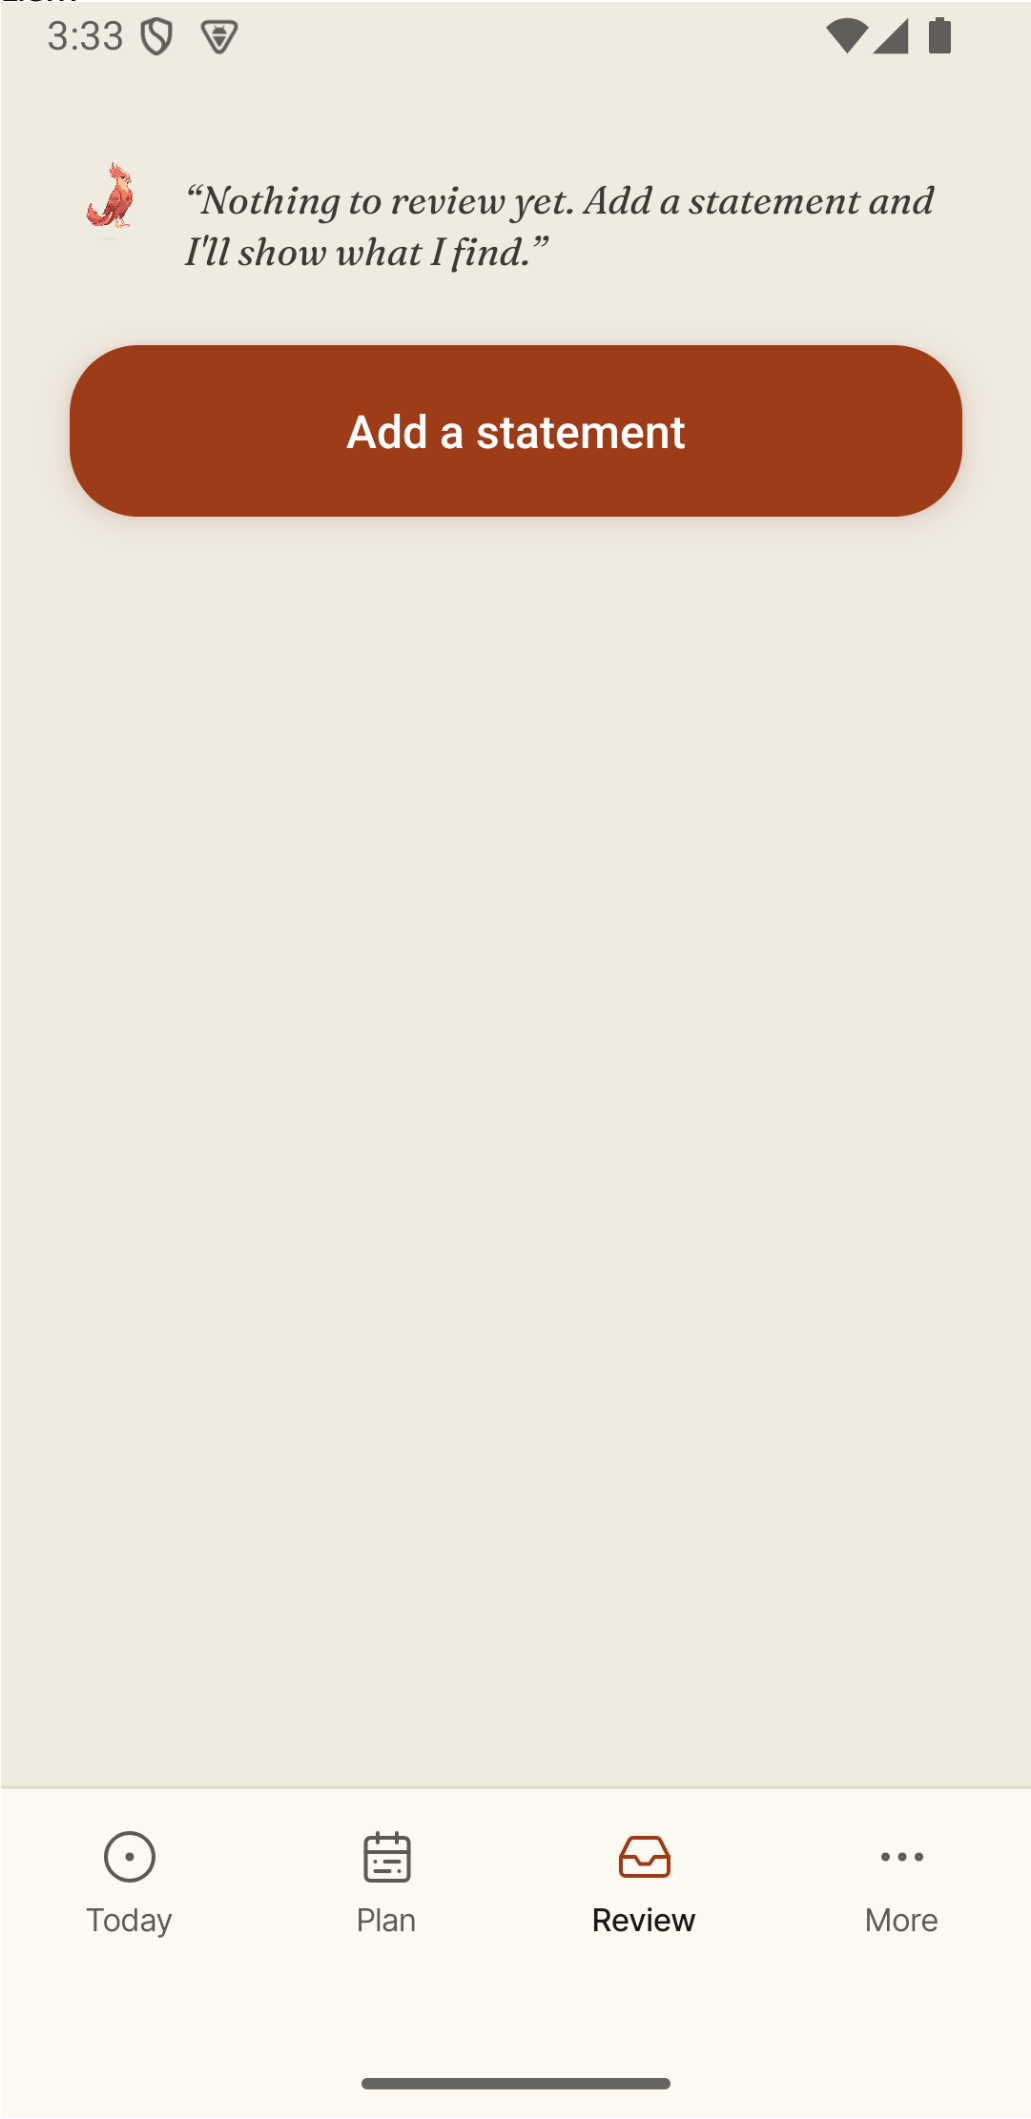

review-item

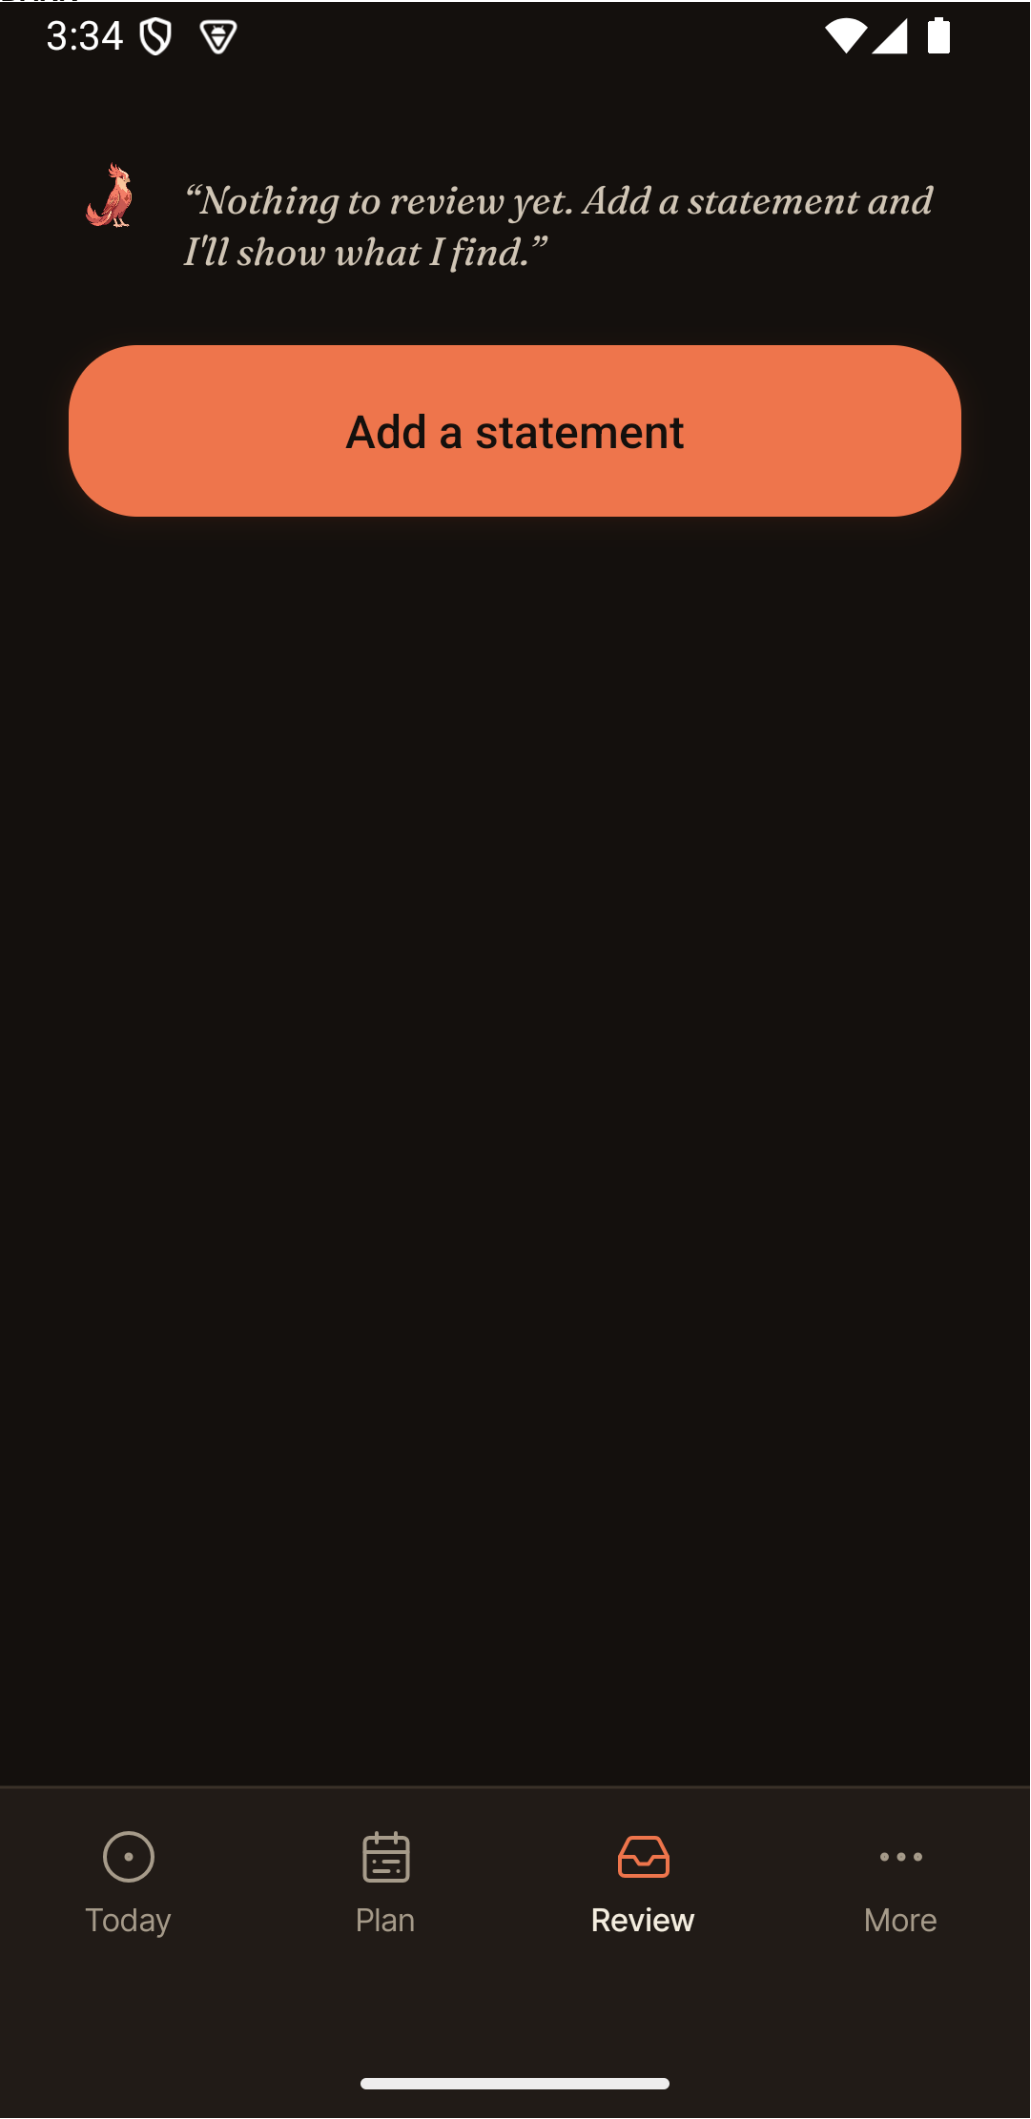

Current native implementation | c857321 + capture-only route allowlist | not visual approval

No selected imported claim in this fixture: empty state, not an imported-item proof.
